NOOSA

TREE PLANTING EVENT

Join our biannual tree planting event and help to revegetate areas of the Noosa Trail Network to provide shade trees for walkers, assist with erosion mitigation and improve the habitat for local koalas and other wildlife. For every one tree planted it is estimated that it will sequester 124kg of carbon dioxide over its lifetime!

Tourism Noosa sponsored events have generously contributed to this program – funding the purchase of 500 native trees that will be planted in partnership with Noosa & District Landcare at this event.

LOCATION Tablelands Lookout, 526 Tablelands Road, Cooran
